GREAT IDEAS

GOOD INTENTIONS - ADDITIONS

UNIFIED DIRECTION

Q & A

ACTIVITY: YOUR TURN

DIRECTIONS

SEATING: Choose a table with a Category 3 metric that you share or that interests you. No table should have more than 8 people.

SET-UP: Each table has:

- 1 blindfold

- 1 bag of gears/parts to build your model

- 1 set of directions

SELECT: Select one person to assemble your model. This person will wear the blindfold and *will not talk* throughout this process.

Other members at the table may give verbal directions only on how to assemble the model and cannot touch the assembler or parts.

GOAL: At the conclusion of this process, each table will have built the same model.

FINAL RESULTS

DISCUSSION

1 - Look at the side of the tower that has two gears. Give examples of how this represents operations in your organization.

2 - Look at the side of the tower that has three gears. Give examples of how this represents operations in your organization.

3 – What were the thoughts/frustrations of the assembler and those giving directions? What can we do to improve communications?

Take Home

A red gear-shaped icon with the word 'STAKEHOLDERS' written in white capital letters in the center.

STAKEHOLDERS

Think about the key stakeholders in your project.

How are you currently connecting with your stakeholders?

A blue gear-shaped icon with the words 'INTERNAL CONNECTIONS' written in white capital letters in the center.

INTERNAL
CONNECTIONS

Think about the other projects or groups **WITHIN** your organization that are connected to your project.

What actions can you take to strengthen these connections?

A green gear-shaped icon with the words 'EXTERNAL CONNECTIONS' written in white capital letters in the center.

EXTERNAL
CONNECTIONS

Think about the groups or projects from **OUTSIDE** of your organization who should be connected to your project, including those from your region and community.

What actions can you take to build these connections?

A yellow gear-shaped icon with the words 'MISSING CONNECTIONS' written in black capital letters in the center.

MISSING
CONNECTIONS

Now think about the groups or projects within your organization that are **NOT** currently connected to your project, but probably should be. What actions can you take to begin connecting to these groups?
