Pediatric specific patient satisfaction survey		Since the provider is utilizing a Child HCAMPS survey, provider cannot report on the reporting measures listed in the Measure Bundle Protocol. Provider should submit to HHSC reporting measures that the provider can report on.	We will be utilizing the Child HCAMPS survey with the standard survey questions that are utilized by all users. I have attached the survey for your review. In summary we will report on PPA's, PPR's, PPC's, PPV's and the Child HCAMPS as our patient satisfaction survey.	HHSC has accepted the provider's response and may follow up on the specific measures indicated prior to October 2018 reporting.

10	138980111	UNTHSC at Fort Worth	Physician Practice affiliated with an Academic Health Science Center (AHSC)					UNTHSC's Core Activities that focus on improved chronic care management and preventive care impact several of the indicators above, including those involving diabetes, hypertension, heart failure, and pneumonia. Through the utilization of clinical and non-clinical multidisciplinary care teams, UNTHSC patients will have expanded access to preventive care services. Implementation of a new collaborative practice agreement will expand the range of medication therapy management services provided. The implementation of social work and health coaching programs will address the social determinants of health within our patient population. Through improved chronic care management and improved access to preventive care services, UNTHSC patients should experience a decrease in acute exacerbation episodes, thereby impacting the Statewide Measure Bundle. 10	360106401	Acclaim Physician Group Inc	Physician Practice not affiliated with an Academic Health Science Center (AHSC)					The 2 selected core activities will have a positive impact on several of the PQIs listed above. Standardized Screening and Follow-up protocols will help us detect the development or exacerbation of chronic diseases and potentially aid early detection of complications. Enhancement of our patient education programs related to chronic disease management will empower the patients to self-manage their chronic conditions and understand the early warning signs of complications before they become emergent.
